# VERIFICACIÓN DE MIGRACIÓN

Se puede observar que en efecto se migraron correctamente los datos a la base de datos.

CONSULTAS SQL

Número de retos que se crearon en los últimos 3 meses, con status 'published', ordenados por la fecha de creación más reciente a menos reciente.

```sql
WITH MostRecentChallengeDate AS (
    SELECT
        MAX(created_at) AS most_recent_date
    FROM
        challenges
    WHERE
        status = 'published'
),
FilteredChallenges AS (
    SELECT
        id,
        name,
        description,
        status,
        opencall_objective,
        created_at
    FROM
        challenges
    WHERE
        status = 'published'
)
SELECT
    fc.id,
    fc.name,
    fc.description,
    fc.status,
    fc.opencall_objective,
    fc.created_at
FROM
    FilteredChallenges fc
CROSS JOIN
    MostRecentChallengeDate mrcd
WHERE
    fc.created_at >= DATEADD(MONTH, -3, mrcd.most_recent_date)
ORDER BY
    fc.created_at DESC;
```
